

NISHITA KUMARI

AI/ML Engineer Aspirant | B.Tech Mathematics & Computing

nishik2811@gmail.com • 9355303520 • linkedin.com/in/nishita-kumari-841227240 • github.com/nishik2811-cell

OBJECTIVE

B.Tech student in Mathematics and Computing pursuing a career in AI/ML, backed by strong analytical thinking, programming proficiency, and hands-on project experience.

EXPERIENCE

Active Technical & Management Volunteer — AIML Hub of IIIT2026

Active Technical & Management Volunteer — DICE2026

EDUCATION

Jaypee Institute of Information Technology, Noida2025 – 2029

B.Tech — Mathematics and Computing | CGPA: 9.11

Relevant Coursework: Mathematical Foundations, Python Programming, C++ Programming, Data Structures & Algorithms, Intro to Artificial Intelligence, Machine Learning Fundamentals, Computational Mathematics, Discrete Mathematics, Probability & Statistics

Rahul International School, Mira Road — Senior Secondary (Class XII)96.2%

Delhi Public School, Indirapuram — Secondary (Class X)84.2%

PROJECTS

ARGUS — C++ Crime Surveillance & Prediction Engine

- Built an OOP-driven crime analysis system in C++ using STL containers, templates, inheritance, polymorphism, and exception handling.
- Processes violent, property, and cyber crime records across a dataset of 500 entries spanning 20 Indian cities, calculating risk scores and surfacing crime trends.

AQI Prediction — Air Quality Index Prediction Project

- Built a Python-based model to forecast Delhi's Air Quality Index from two years of hourly pollutant data (CO, NO, NO2, SO2, O3, PM2.5, PM10, NH3).
- Paired the model with an HTML interface for visualizing predictions and trends.

Personal Portfolio Website

- Designed and deployed a personal portfolio website (HTML, CSS, JavaScript) on Vercel to showcase projects and skills, iterating through two different visual designs.

SKILLS

Programming Languages: C, C++, Python, Java

Frontend: HTML, CSS, JavaScript

Data & Machine Learning: NumPy, Pandas, Matplotlib

Database: MySQL

Development: Git, GitHub, VS Code, Vercel

Design: Canva, Framer, Photoshop
